There will be a support vehicle. There will be a maximum of 12 riders on the full expedition. It's likely that you will be asked to ride an Enfield motorcycle. Some riders will be chosen for their mechanical expertise even though there will be a mechanic. How do you feel about this?

Just so you know, where we cross into various Australian Outback regions there will be no ambulance services and what medical facilities do exist will be basic. In the unlikely situation of a rider having an accident, there will be little chance of good quality medical support should this be required so you will need to be transported in the support vehicle. We will attempt to take any accidented rider to the best hospital available - which are usually well equipped. Please ensure you have full medical and repatriation insurance. Are you aware of this? What are your thoughts?

.....
.....

There are the following additional costs, please tick the box so we know you are aware of them.

Fuel costs

These are increasing but have been as high as £2 a litre in the Outback.

3rd Party Motoring Insurance

Insurance for Australia is at the discretion of the rider so please check if your insurer will offer you 3rd party cover.

(please tick)

In the case of an accident, do you have any medical history that would prevent treatment – allergies to penicillin, mosquito repellent etc?

.....
.....

If you have any questions please list them below and indicate a suitable time for me to give you a ring to try and answer them.
